

# VU Early-Mid Career Researcher Forum

Are you a VU staff member up to 10 years post-PhD?

Active (or aspiring to be active) in research?

What obstacles have you or are you facing? What would help overcome them?

The VU ECR group are running this forum to identify roadblocks that stop our researchers from reaching their full potential and workshop ideas that may help remove them. The outcome will then be reported back to the PVC, Research & Research Training and the Director, Office for Research.

*Come have your say!!*

**Special Guest Presentation:** A/Prof. Peter Anderson.

Director, Victorian Infant Brain Studies (VIBeS) and  
Principal Research Fellow, Murdoch Childrens Research Institute

**When: Monday, July 8th. 9.15am—1pm.**

**Where: Footscray Park—D531**

**RSVP: Monday, July 1st to:**
